

Testimonials

The benefits realized by using the HL4Y Detox Therapy differ from person to person. Results vary, depending on your current state of health.

"I have arthritis In both knees and found it difficult to get upstairs without pulling myself up the handrail. After 1 treatment, I can go up the stairs freely"

Patricia, Ontario

"My eyelids and ankles were swollen and after 2 sessions, it went down completely"

Lily, Alberta

"I am a massage therapist and spa owner. We introduced the detox to compliment the services we already provide. With this new service we've added an average of 5 new clients per week. They have more energy, sleep better and manage pain."

Grant Johnson, RMT, Ontario

"In 1994, I was diagnosed with Type 2 diabetes. Over the years, numbness and pain settled into my lower legs. After the second Ion Footbath session, the pain and numbness was greatly reduced, especially in my knees."

Jean McKinnon, Ontario

HL4Y Advanced System

The HL4Y system is designed for safety, effectiveness and ease of use – providing consistent and safe results.

Unique Features:

- Professional quality; easy to use
- Does not require monitoring
- Portable with stylish carrying case
- Dual coil array for a stronger field
- Auto programming with digital display
- Full 1 year Manufacturers Limited Warranty
- Designed in Canada
- Distributed World Wide

Ion Detox
Therapy

Suffering from Toxic Overload? Do you:

- smoke?
- live in a city or commute everyday?
- drink excessive coffee, tea or soda?
- have stress in your life?
- have low energy or wake up tired?
- have difficulty concentrating?
- have heartburn?
- suffer from headaches or migraines?
- have poor circulation?
- experience recurring joint pain?

Why Detoxify?

Everyday, we are exposed to pollutants, chemicals and toxins that are absorbed into our skin, digestive system and lungs. As toxins accumulate, your

body becomes more stressed and impaired, lessening your body's natural ability to fight disease.

- Cancer
- Heart Disease
- Joint Pain
- Fatigue
- Diabetes
- Obesity
- Depression
- Fibromyalgia
- Arthritis
- Gout
- Psoriasis

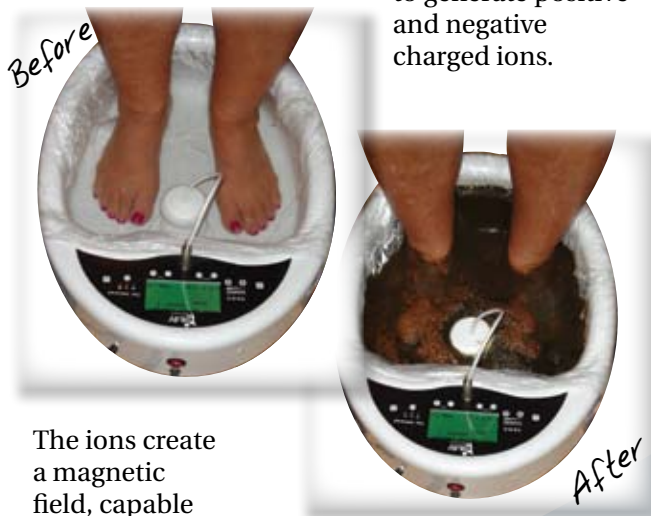

are on the rise, and there is a definite connection between cellular toxicity and illness.

HL4Y Ion Detox Therapy

is the most effective system for Safe & Easy Complete Body Detoxification.

How does the system work?

Ion detoxification utilizes the process of osmosis. The array is placed into the footbath, delivering a small direct current which causes the metals in the array, in conjunction with the water and salt, to generate positive and negative charged ions.

The ions create a magnetic field, capable of neutralizing oppositely charged particles. Through osmosis, the neutralized toxins are pulled from the body through the 2,000 sweat glands of the feet, and deposited into the water.

Why is the HL4Y system unique?

Three Therapies in one system allow you to eliminate toxins while stimulating circulation and relieving pain. Specific to your needs, one or all therapies may be used:

- **Ion Footbath** to accelerate the removal of toxins from the body through the process of osmosis
- **TENS** to help relieve joint and muscle pain
- **Far Infrared Belt** to provide a gentle, radiant heat therapy to stimulate circulation and improve metabolism. FIR has been shown to help treat Arthritis, muscle pain, backaches, and PMS.

How many sessions are needed?

A series of 10 - 14 sessions are recommended, periodically throughout the year. Sessions can be carried out 2 or 3 times per week to ensure maximum results without taxing the body.

What are clients experiencing?

- ✓ Elimination of heavy metals and toxins
- ✓ Increased energy and mental clarity
- ✓ Improved memory
- ✓ Reduced stress and mood swings
- ✓ Healthier, younger looking skin
- ✓ Significant pain relief
- ✓ Greater overall sense of well-being

When can I start? Today!
